INDEX

WHEN A **GLOWING TRADITION** LEADS TO AN **INNER RENOVATION**

The Cersaie 2024 project is about tradition and innovation, bonds and connection, (re)birth and (re)discovery. An inner renewal rooted in the values and traditions that have always guided our path, with a careful and constant look towards progress.

This evolution is reflected in the design of Ceramica Sant'Agostino new logo, which holds past, present and future in a single graphic concept. As for the new collections, their essence is based on the search for timeless beauty and at the same time on the beauty that has yet to be revealed, a beauty that amazes with its spontaneity and peculiarity. A renewal of one's desire to investigate, fathom, savour places and atmospheres, whether known or yet unexplored. Technological research is also a fundamental aspect in the design of Ceramica Sant'Agostino new products, a constant process of innovation that brings the product ever closer to the tactile and visual sensations of matter in nature.

The Cersaie 2024 project is a path aimed at discovery, unveiling, and the desire to show its progress, always through a narrative and an unfolding of settings and suggestions.

Il progetto Cersaie 2024 parla di tradizione e di innovazione, di legami e di continuità, di (ri)nascita e di (ri)scoperta. Un rinnovamento interiore che affonda le proprie radici nei valori e nelle tradizioni che da sempre guidano il nostro cammino, con uno sguardo attento e costante verso il progresso.

Questa evoluzione si ritrova nel design del nuovo logo di Ceramica Sant'Agostino, che racchiude passato, presente e futuro in un unico concept grafico. Mentre per le nuove collezioni, la loro essenza si fonda sulla ricerca della bellezza senza tempo e contemporaneamente su quella che deve ancora essere rivelata, una bellezza che stupisce per la sua spontaneità e peculiarità. Un rinnovo della propria voglia di indagare, scandagliare, assaporare luoghi e atmosfere, siano essi conosciuti o ancora inesplorati. Anche la ricerca tecnologica si conferma un aspetto fondamentale nella progettazione dei nuovi prodotti di Ceramica Sant'Agostino, un costante processo di innovazione che avvicina sempre di più il prodotto alle sensazioni tattili e visive della materia in natura.

Il progetto Cersaie 2024 è un percorso volto alla scoperta, alla volontà di mostrare i propri progressi, sempre attraverso un racconto e uno svolgersi di ambientazioni e suggestioni.

Ceramica Sant'Agostino Superior Technology

The development of cutting-edge technological solutions, always in balance between quality, innovation and aesthetics, is the key element that drives our process of continuous evolution.

The Superior Technology program emphasizes the results of this important work made of advanced research, latest generation technologies, attention to sustainability, to respond to any need of the designer and end user always providing the best solutions for every need.

Lo sviluppo di soluzioni tecnologiche d'avanguardia, sempre in equilibrio tra qualità, innovazione ed estetica, è l'elemento chiave che guida il nostro processo di evoluzione continua. Il programma Superior Technology pone l'accento sui risultati di questo importante lavoro fatto di ricerca avanzata, tecnologie di ultima generazione, attenzione alla sostenibilità, per rispondere a qualsiasi necessità del progettista e dell'utente finale fornendo sempre le migliori soluzioni per ogni tipo di esigenza.

Carve3D Technology

Three-dimensionality of the tile with Carve3D Technology.

Carve3D Technology creates a digitally printed surface movement through the use of grooving and sinking glazes. This dynamism integrates with the graphics to achieve an overall effect that gives the product greater three-dimensionality both to the eye and to the touch.

Tridimensionalità della piastrella con la tecnologia Carve3D.

La Carve3D Technology crea un movimento della superficie realizzato con stampa in digitale grazie all'utilizzo di smalti riservanti ed affondanti. Questo dinamismo si integra con la grafica per ottenere un effetto d'insieme che dona una maggiore tridimensionalità al prodotto sia visivamente, che al tatto.

In-Out Project

Project for continuous surfaces indoor-outdoor.

Defines the collections that present in their range indoor and outdoor finishes in 10 and 20 mm thickness, which allow continuity between the two areas.

Progetto per superfici continue indoor-outdoor.

Definisce le collezioni che presentano nella loro gamma finiture da interno e da esterno in 10 e 20 mm di spessore, che permettono la continuità tra i due ambienti.

Safe Plus Antiviral & Antibacterial

Antibacterial and antiviral technology for healthier and more protected environments.

Technology that utilizes the remarkable antibacterial properties of silver ions, capable of blocking the proliferation of a wide range of bacteria and viruses present on surfaces.

Tecnologia antibatterica e antivirale per ambienti più sani e protetti.

Tecnologia che sfrutta le notevoli proprietà antibatteriche degli ioni di argento, in grado di bloccare la proliferazione di un'ampia gamma di batteri e virus presenti sulle superfici.

Nat Plus Technology

Special double surface - soft touch and non-slip in one solution.

Technology that allows to obtain the characteristics of two different types of surface in a single product: smooth and soft to the touch when the tile is dry, rougher and slip-resistant when it is wet.

Speciale doppia superficie - morbidezza al tatto e antiscivolo in un'unica soluzione.

Tecnologia che permette di ottenere le caratteristiche di due diversi tipi di superficie in un unico prodotto: liscia e morbida al tatto quando la mattonella è asciutta, più ruvida e resistente allo scivolamento quando è bagnata.

Krystal Technology

Special polishing for a crystal-clear, hard surface.

Technology that identifies a material of new concept developed to obtain a type of polishing qualitatively superior, both in terms of technical and aesthetic aspects.

Levigatura speciale per una superficie durissima e brillante come il cristallo.

Tecnologia che identifica un materiale di nuovissima concezione messo a punto per ottenere un tipo di levigatura qualitativamente superiore, sotto il profilo sia tecnico sia estetico.

Digital Plus Technology

Digital technology for high definition graphics and textures.

High-definition digital printing allows to obtain aesthetically superior products. Ceramica Sant'Agostino has improved the potential of this technology by adding new colors and materials, bringing it to the highest levels.

Tecnologia digitale per grafiche e texture ad alta definizione.

La stampa digitale ad alta definizione consente di ottenere prodotti esteticamente superiori. Ceramica Sant'Agostino ha implementato le potenzialità di questa tecnologia tramite l'aggiunta di nuovi colori e materie, portandola ai massimi livelli.

The Superior Technology program is enriched with a new technology. Carve3D Technology creates a digitally printed surface movement through the use of grooving and sinking glazes.

This dynamism integrates with the graphics to achieve an overall effect that gives the product greater three-dimensionality both to the eye and to the touch.

The continuous technological innovation that Ceramica Sant'Agostino pursues through its research activities allows the company to raise the quality of its products while highlighting their strengths:

- Improved aesthetics and three-dimensional effect
- A more realistic product due to the combination of graphics and surface dynamism
- Possibility of an infinite number of surface movements
- Appealing to the touch while maintaining high functional performances.

Il programma Superior Technology si arricchisce di una nuova tecnologia. La Carve3D Technology crea un movimento della superficie tramite stampa digitale grazie all'utilizzo di smalti riservanti ed affondanti.

Questo dinamismo si integra con la grafica per ottenere un effetto d'insieme che dona una maggiore tridimensionalità al prodotto sia visiva che tattile.

La continua innovazione tecnologica che Ceramica Sant'Agostino persegue con la sua attività di ricerca, permette di elevare la qualità dei prodotti mettendone in risalto i punti di forza:

- Estetica migliorata ed effetto tridimensionale
- Prodotto più realistico per la combinazione tra grafica e dinamismo della superficie
- Possibilità di avere un numero infinito di movimenti superficiali
- Piacevolezza al tatto mantenendo elevate le prestazioni funzionali.

F L A W L E S S D R E S S

I R O

The surface is cloaked in a robe of tones as clean as sand or as colorful as the clear sky after rain. Full-field backgrounds or bright, vibrant touches of color. Iro is the collection inspired by the textural yet sinuous graphics of plaster that creates a contemporary and fresh wall effect.

La superficie si ammanta di una veste dai toni puliti come la sabbia o colorati come il cielo limpido dopo una pioggia. Campiture a campo pieno o tocchi di colore vivaci e squillanti. Iro è la collezione ispirata alla grafica materica ma sinuosa dell'intonaco che crea un effetto muro contemporaneo e fresco.

T I M E L E S S T R E A S U R E

I N V I C T U S C R O S S

The mastery of antiquity is translated into porcelain stoneware, handing down its prestige in a play of balances between past, present and future. Invictus Cross is the travertine-inspired collection that together with Invictus offers, in the same color range, a choice between both types of vein: longitudinal vein with Invictus and transverse vein with Invictus Cross.

La maestria dell'antichità viene tradotta in gres porcellanato tramandandone il prestigio in un gioco di equilibri tra passato, presente e futuro. Invictus Cross è la collezione ispirata al travertino che assieme ad Invictus offre, nella stessa gamma di colori, la possibilità di scegliere tra entrambe le tipologie di venature: venatura longitudinale con Invictus e trasversale con Invictus Cross.

U R B A N E L E G A N C E

G L O W

From the noblest tradition is drawn the elixir of elegance. A soft, refined and measured elegance, such that it can be rediscovered eclectic and bold when combined with other effects. Glow is inspired by the highest expression of terrazzo, pursuing a silky reinterpretation softened by the neutral colors that articulate the collection.

Dalla più nobile tradizione si attinge l'elisir dell'eleganza. Un'eleganza morbida, raffinata e misurata, tale da potersi riscoprire eclettica e audace quando accostata ad altri effetti. Glow si ispira alla più alta espressione del terrazzo, perseguendone una rivisitazione setosa, addolcita dai toni neutri che articolano la collezione.

NOVART

Novart is the collection inspired by the combination of concrete rationalism and the fragmented and decorative nature of mosaic. Novart touches the chords of the unknown, of what was previously concealed and now shows itself, but from the first moment seems to have no secrets when the universal language of emotion wins.

Novart è la collezione ispirata al connubio tra il razionalismo del cemento e la natura frammentata e decorativa del mosaico. Novart tocca le corde dell'ignoto, di ciò che prima era celato e ora si mostra, ma che dal primo momento sembra non avere segreti quando vince il linguaggio universale dell'emozione.

R E G E N E R A T I N G C A L M

W I N D S T O N E

A cool wind, graceful but intense, that does not lie, but declares its presence without invading. A wind that gently caresses and darkens the surface of the new stone-effect stoneware. Windstone gives the space a feeling of well-being and an enveloping visual stillness.

Un vento fresco, aggraziato ma deciso, che non mente, ma dichiara la sua presenza senza invadere. Un vento che accarezza e imbrunisce delicatamente la superficie del nuovo gres effetto pietra. Windstone dona all'ambiente una sensazione di benessere e un'avvolgente quiete visiva.

GRACEWOOD

Wood immortalized in its essence. Nature, substance and finally reality. A reality without frills but alive with its own pure and delicate image. Gracewood is a wood-effect collection that, just like the name from which it takes its inspiration, accompanies the aesthetics of the space where it is meant to be, with great grace and harmony.

Il legno immortalato nella sua essenza. Natura, sostanza e infine realtà. Una realtà senza orpelli ma viva della propria immagine pura e delicata. Gracewood è una collezione effetto legno che, proprio come il nome da cui prende ispirazione, accompagna l'estetica dello spazio in cui si va ad inserire, con grande grazia e armonia.

BIT

Bricks that convey a sense of tradition and novelty. A mix that takes back a familiar aesthetic, but reedits it in a fresher, more refined version. Bit collection, in a single 5x20 brick format and Mat finish, adds a touch of style in each of its combinations.

Mattoncini che trasmettono un senso di tradizione e di novità. Un mix che riprende un'estetica conosciuta, ma la riedita in versione più fresca e raffinata. La collezione Bit, in unico formato brick 5x20 e finitura Mat, aggiunge un tocco di stile in ogni suo abbinamento.

Packings, colours and sizes are subject to inevitable variations. The information contained in this catalogue is correct to the best of our knowledge, but it is not construed as legally binding.

Imballi, colori e misure sono soggetti a inevitabili variazioni. Le informazioni contenute nel presente catalogo sono il più possibile esatte, ma non sono da ritenersi legalmente vincolanti.

Verpackungen, Farbe und Masse der Fliesen unterliegen unvermeidlichen Veränderungen. Die im vorliegenden Katalog enthaltenen Angaben sind so genau wie möglich gehalten, sind aber auch rechtlich nicht verbindlich.

Changements de poids, nuances et dimensions sont typiques et inevitable. Les renseignements donnés dans ce catalogue sont le plus possible exacts, sans avoir effet obligatoire.

Упаковка, цвет и размеры могут претерпевать неизбежные изменения. Вся содержащаяся в настоящем каталоге информация максимально точная, но она не является юридически обязывающей.
